Specification Summary

Brand	Squire
Product type	Long Shackle

Product Description

The Squire Stronghold SS50S/2.5 is a high-security, 50mm solid hardened steel padlock featuring an extra-long boron alloy steel shackle. Combining a compact design with market-leading performance, this padlock is specifically engineered to resist determined physical attacks, making it an ideal choice for securing garages, warehouses, commercial vehicles, perimeter gates, and trailers.

Equipped with a highly secure 6-pin cylinder offering 250,000 key differs, the SS50S/2.5 is highly resistant to picking, drilling, and sawing. It features a key-retaining design, ensuring that the key can only be withdrawn when the padlock is securely locked. Built to withstand the harshest outdoor environments, it features an electrophoretic anti-corrosion finish that has been salt spray tested for over 200 hours to ensure reliable operation in all weather conditions.

This padlock is CEN Grade 4 rated, offering robust high-security protection. It is also rekeyable, allowing for easy integration into keyed-alike or master-keyed suites.

Technical Specifications

- **Brand:** Squire
- **Manufacturer Reference:** SS50S/2.5 BX
- **Body Width:** 50mm
- **Body Material:** Solid hardened steel
- **Shackle Material:** Hardened boron alloy steel
- **Vertical Clearance:** 62mm
- **Cylinder System:** Squire Stronghold 6 Pin
- **Mechanism:** 6 Pin
- **Key Differs:** 250,000
- **Keying:** Keyed To Differ (Keyed Alike and Master Keyed options available)
- **Standards:** CEN Grade 4
- **Weight:** 550g
- **Packaging:** Display Box

Key Features

- **CEN Grade 4 Approved:** Certified high-security rating for dependable protection against forced entry.
- **Long Shackle Design:** 62mm vertical clearance provides extra reach, making it ideal for larger gates, chains, and commercial vehicles.
- **Highly Attack Resistant:** Solid hardened steel body and hardened boron alloy steel shackle resist sawing, drilling, and cropping.
- **Corrosion Resistant Finish:** Electrophoretic finish provides excellent weather protection, salt spray tested for over 200 hours.
- **Key Retaining Security:** Key withdrawal is only possible when the padlock is fully locked, preventing accidental unlocking.
- **Rekeyable Mechanism:** 6-pin cylinder can be rekeyed and is suitable for Keyed Alike or Master Keyed suites.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
