Specification Summary

Brand	Squire
Product type	SQUIRE Stronghold Steel Padlock Range
Keyway	Squire Stronghold Padlocks

Product Description

The Squire Stronghold SS65S is a high-security, solid hardened steel open shackle padlock manufactured in the UK. Designed to deliver exceptional protection in the most demanding environments, this padlock has been rigorously tested to achieve a CEN Grade 5 rating.

It features a robust 12.7mm diameter hardened boron alloy steel shackle and a solid hardened steel body, providing formidable resistance against cutting, sawing, drilling, and picking. To ensure reliable operation in harsh outdoor conditions, the padlock is finished with an electrophoretic anti-corrosion coating and fitted with a protective outer

casing.

At its core is a high-security Squire Stronghold 6-pin cylinder offering over 250,000 key differs, with double ball bearing locking for maximum pull resistance.

This padlock is available in multiple options, including different packaging types (Boxed or Visi-packed) and slightly varying weights (1kg or 1.05kg). Please choose your preferred packaging, weight, and manufacturer reference from the options below.

Technical Specifications

- **Body Width:** 65mm
- **Body Thickness:** 31.8mm
- **Shackle Diameter:** 12.7mm
- **Vertical Clearance:** 29mm
- **Horizontal Clearance:** 29.5mm
- **Mechanism:** 6-pin cylinder
- **Differs:** 250,000
- **Keys Supplied:** 2
- **Security Standard:** CEN Grade 5
- **Weight:** 1kg to 1.05kg (please choose from the options below)
- **Packaging:** Boxed or Visi (please choose from the options below)

Key Features

- Solid hardened steel body and boron alloy steel shackle for maximum attack resistance
- Electrophoretic finish and outer casing provide excellent corrosion and weather resistance
- High-security 6-pin cylinder with 250,000 key differs
- Double ball bearing locking mechanism prevents pulling and prying
- Resistant to picking, drilling, sawing, and other physical attacks
- Proudly manufactured in the UK

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
