Specification Summary

Brand	Squire
Product type	Closed Shackle

Product Description

The Squire Stronghold ST50CS is a premium, high-security closed shackle padlock designed to withstand the harshest outdoor and marine environments. Proudly manufactured in the UK, this padlock features a solid 50mm stainless steel body and a 10mm stainless steel shackle. Its closed shackle design significantly reduces exposure to physical attacks, making it highly resistant to cutting and cropping.

Equipped with a rekeyable 6-pin cylinder offering over 250,000 key differs, the ST50CS provides excellent protection against picking, bumping, and drilling. For added security, the lock is key-retaining, meaning the key can only be withdrawn when the padlock is fully locked.

This padlock is available in different packaging options (Boxed or Visi-packed) with corresponding manufacturer references. Please select your preferred option from the choices below.

Technical Specifications

- **Body Width:** 50mm
- **Body Thickness:** 26mm
- **Body Material:** Stainless Steel
- **Shackle Diameter:** 10mm
- **Shackle Material:** Stainless Steel
- **Vertical Clearance:** 16mm
- **Horizontal Clearance:** 16mm
- **Cylinder System:** Squire Stronghold 6 Pin
- **Key Differs:** 250,000
- **Standards:** CEN Grade 3
- **Keys Supplied:** 2
- **Weight:** 650g

Key Features

- **Marine Grade Protection:** Solid stainless steel body and shackle designed for maximum corrosion resistance in harsh environments.
- **Closed Shackle Design:** Minimises shackle exposure to protect against bolt croppers and sawing attacks.
- **High Security Cylinder:** Rekeyable 6-pin anti-drill, anti-pick, and anti-bump mechanism.
- **Key Retaining:** Key can only be removed when the padlock is securely locked.
- **UK Manufactured:** High-quality British manufacturing backed by a 10-year manufacturer's guarantee.
- **CEN Grade 3 Approved:** Independently tested and certified to European standards.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
