Specification Summary

Brand	Squire
Product type	Long Shackle

Product Description

The Squire Stronghold ST50S/2.5 is a high-security, marine-grade padlock designed to withstand the harshest environments. Manufactured in the UK, this robust padlock features a 50mm wide solid stainless steel body and a 10mm diameter stainless steel long shackle, offering exceptional resistance to corrosion and physical attack. It has been salt spray tested for 480 hours, making it ideal for marine, coastal, and extreme outdoor applications.

At its core is a highly secure, rekeyable 6-pin cylinder that provides over 250,000 key differs, alongside advanced protection against drilling, picking, and bumping. For added security, the padlock is key-retaining, meaning the key

can only be withdrawn when the padlock is fully locked. Tested to CEN Grade 3, the ST50S/2.5 comes with a manufacturer's 10-year guarantee and is supplied with two keys.

Technical Specifications

- **Body Width:** 50mm
- **Body Thickness:** 26mm
- **Shackle Diameter:** 10mm
- **Vertical Clearance:** 65mm (2.5")
- **Horizontal Clearance:** 22mm
- **Body & Shackle Material:** Stainless Steel
- **Mechanism:** 6-Pin Cylinder (Squire Stronghold)
- **Key Differs:** 250,000
- **Security Rating:** CEN Grade 3

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
