Specification Summary

Brand	Squire
Product type	Open Shackle

Product Description

The Squire Stronghold ST50S is a high-security, marine-grade open shackle padlock designed to withstand the harshest outdoor environments. Manufactured in the UK, it features a solid 50mm wide stainless steel body and a 10mm diameter stainless steel shackle, offering exceptional resistance to corrosion and physical attack.

Tested to CEN Grade 3, this robust padlock is ideal for securing high-risk areas such as coastal facilities, marine environments, garages, warehouses, and perimeter gates. It is equipped with a highly secure Squire Stronghold 6-pin cylinder system that provides up to 250,000 key differs, and features anti-drill protection to resist forced entry. For added security, the key can only be withdrawn when the padlock is fully locked, preventing accidental unlockings.

This padlock is available with different packaging options (Boxed or Visi) and corresponding manufacturer references (ST50S or ST50S BX). Please select your preferred options from the choices below.

Technical Specifications

- **Body Width:** 50mm
- **Body Thickness:** 26mm
- **Shackle Diameter:** 10mm
- **Vertical Clearance:** 26mm
- **Horizontal Clearance:** 22mm
- **Body & Shackle Material:** Solid Stainless Steel
- **Cylinder Mechanism:** Squire Stronghold 6-pin
- **Security Rating:** CEN Grade 3
- **Keying:** Keyed to differ (supplied with 2 keys)
- **Key Differs:** 250,000
- **Weight:** 495g

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
