Specification Summary

Brand	Squire
Product type	Horizontal

Product Description

The Squire Stronghold® High Security Horizontal Padbar is designed to provide maximum protection against forced entry and physical attack. Built to meet stringent BS EN 12320 European Security Standards, this heavy-duty padbar is an ideal security solution for perimeter gates, warehouses, storage areas, and both internal and external doors.

Constructed from a special cast material, it features a hardened rotating staple that spins to prevent cutting tools from gaining a grip, offering exceptional resistance to attack. This robust padbar is easy to fit and provides a highly reliable defence when paired with a high-security padlock.

This product is available in two versions to suit your security requirements: the ultra-strong STH1 (CEN Grade 6, weighing 2.72kg) and the STH2 (CEN Grade 4, weighing 2.6kg). Please select your preferred manufacturer reference and weight from the options below.

Technical Specifications

- **Brand:** Squire
- **Manufacturer Reference:** STH1 or STH2 (please choose from the options below)
- **Weight:** 2.6kg or 2.72kg (please choose from the options below)
- **Length:** 18.4cm
- **Width:** 86mm
- **Height:** 32mm
- **Depth:** 32mm
- **Shackle Diameter:** 12.7mm
- **Finish:** Blue
- **Standards:** Tested to BS EN 12320 (CEN Grade 6 for STH1)
- **Pack Quantity:** 1

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
