Specification Summary

Brand	Squire
Product type	Body Only

Product Description

The Squire Stronghold Closed Shackle Padlock (Body Only) is a high-security, heavy-duty locking solution specifically designed to accommodate the Evva KIK-SS cylinder insert. This purpose-built padlock body allows for the quick, secure, and straightforward installation of the cylinder without any drilling required, making it an incredibly cost-effective option for master key integration or when lock mechanisms need to be changed without replacing the

entire padlock.

Constructed with a solid hardened steel body and a hardened boron alloy steel shackle, this padlock offers exceptional resistance to physical attack. Its electrophoretic finish provides superior corrosion resistance, making it highly weather-resistant and suitable for harsh outdoor environments.

This padlock body is available in multiple body widths, including 50mm, 65mm, and 80mm, with security standards ranging from CEN Grade 4 to CEN Grade 6 and weights from 594g to 2.146kg. Please choose your preferred size and specification from the options below.

Technical Specifications

- **Brand:** Squire
- **Suits Product:** Evva KIK-SS cylinder insert
- **Body Widths Available:** 50mm, 65mm, 80mm (please select below)
- **Security Ratings:** CEN Grade 4 (50mm) / CEN Grade 6 (65mm & 80mm)
- **Shackle Material:** Hardened boron alloy steel
- **Body Material:** Hardened steel
- **Finish:** Weather-resistant electrophoretic finish
- **Weights:** 594g, 1.011kg, or 2.146kg (depending on size)
- **Manufacturer References:** ALD/SS50C/BO, ALD/SS65C/BO, ALD/SS80C/BO

Key Features

- **Cylinder Compatibility:** Designed specifically for easy and secure fitment of Evva KIK-SS inserts with no drilling required.
- **Cost-Effective Maintenance:** Allows the locking mechanism to be serviced or changed without replacing the entire padlock body.
- **High Security:** Closed shackle design with CEN Grade 4 or CEN Grade 6 rating for robust protection.
- **Master Key Ready:** Ideal for integration into existing master key systems.
- **Weather Resistant:** Corrosion-resistant electrophoretic finish ensures reliable performance in outdoor conditions.
- **Multiple Options:** Available in a range of sizes and weights to suit your specific security requirements.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
