Specification Summary

Brand	Squire
Product type	Body Only

Product Description

The Squire Stronghold Closed Shackle Padlock Body Only is designed for seamless integration with external Scandinavian oval cylinders, making it an ideal choice for masterkey systems. Constructed with a solid hardened steel body and a hardened boron alloy steel shackle, this padlock delivers exceptional security and durability. It features an electrophoretic anti-corrosion finish to withstand harsh weather conditions.

Choosing the Correct Version: Scandinavian oval cylinders are manufactured with two different rear drive types. Please check the back of your cylinder before ordering:

- If your cylinder has a **drive tang** at the rear, you must select the **female (slot)** version of the padlock.
- If your cylinder has a **drive slot** at the rear, you must select the **male (tang)** version of the padlock.

These padlocks are available in multiple body widths, shackle diameters, and security ratings. Please choose your preferred size, drive type, and specification from the options below.

Technical Specifications

- **Brand:** Squire
- **Body Width:** 50mm, 65mm, or 80mm (please select from the options below)
- **Body Thickness:** 26mm, 31.8mm, or 40mm (please select from the options below)
- **Shackle Diameter:** 10mm, 12.7mm, or 16mm (please select from the options below)
- **Horizontal Clearance:** 16mm or 23.5mm (please select from the options below)
- **Vertical Clearance:** 16mm or 19mm (please select from the options below)
- **Weight:** 510g, 952g, or 2.2kg (please select from the options below)
- **Standards:** CEN Grade 4, 5, or 6 & Secured by Design (depending on model selected)
- **Compatibility:** Designed for use with Scandinavian Oval Cylinders
- **Guarantee:** 10 Year Manufacturer's Guarantee

Key Features

- **Cylinder Integration:** Specifically designed to accept external Scandinavian oval cylinders without additional modifications.
- **Closed Shackle Design:** Offers maximum protection against cutting and cropping attacks.
- **Robust Construction:** Solid hardened steel body paired with a hardened boron alloy steel shackle.
- **Corrosion Resistant:** Finished with an electrophoretic anti-corrosion coating for excellent weather resistance.
- **Masterkey Compatible:** Ideal for integrating into existing or new masterkey suites.
- **Drive Options Available:** Available in both 'Tang' (FCAM) and 'Slot' (MCAM) versions to match your cylinder's rear drive type.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
