Specification Summary

Brand	Squire
Product type	Through Hardened

Product Description

The Squire Stronghold Hardened Alloy Steel Chain is a high-security solution designed to provide robust protection for high-risk applications. It is ideal for securing perimeter gates, substations, heavy goods vehicles, and plant machinery, making it highly recommended where there is an increased security or health and safety risk.

Constructed from premium hardened alloy steel, these chains are engineered to resist aggressive physical attacks. Each chain is encased in a durable, weather-resistant fabric sleeve to prevent scratching and damage to your secured valuables.

This versatile chain is available in multiple configurations to suit your security needs. Choose between 8mm link diameters (J Chain) offering Sold Secure Silver (Cycle) approval, or heavier 10mm link diameters (G Chain) providing Sold Secure Gold (Cycle) protection. A range of lengths, weights, and sleeve finishes are available - please select your preferred options from the selections below.

Technical Specifications

- **Brand:** Squire
- **Material:** Hardened alloy steel
- **Link Diameter:** 8mm or 10mm (please choose from the options below)
- **Chain Length:** 0.915m, 1.2m, 1.5m, or 2m (please choose from the options below)

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
