Specification Summary

Brand	Squire
Product type	Body Only

Product Description

The Squire Stronghold Long Shackle Padlock Body Only is a high-security locking solution designed specifically to accommodate Evva KIK-SS cylinder inserts. This purpose-designed padlock body allows for the quick, easy, and secure fitment of an Evva KIK-SS cylinder without the need for drilling. This makes it an incredibly cost-effective option, as you can change the locking mechanism or integrate it into a master key system without replacing the entire padlock.

Constructed with a solid hardened steel body and a hardened boron alloy steel long shackle, this padlock offers exceptional resistance against cutting, sawing, and other physical attacks. It features a highly durable, corrosion-resistant electrophoretic finish, making it ideal for use in harsh outdoor environments.

This padlock body is available in multiple options, including 50mm and 65mm body widths, with security ratings of CEN Grade 4 or CEN Grade 5 respectively. Please choose your preferred size, vertical clearance, and specification from the options below.

Technical Specifications

- **Brand:** Squire
- **Compatibility:** Designed to take Evva KIK-SS cylinder inserts
- **Body Width:** 50mm or 65mm (please choose from the options below)
- **Vertical Clearance:** 62mm or 65mm (please choose from the options below)
- **Horizontal Clearance:** 29.5mm
- **Security Rating:** CEN Grade 4 or CEN Grade 5 (please choose from the options below)
- **Body Material:** Solid hardened steel
- **Shackle Material:** Hardened boron alloy steel
- **Finish:** Electrophoretic (corrosion-resistant)
- **Weather Resistant:** Yes
- **Pack Quantity:** 1
- **Guarantee:** 10 Year

Key Features

- **Cylinder Compatibility:** Purpose-designed for easy and secure fitment of Evva KIK-SS cylinders with no drilling required.
- **Cost-Effective Maintenance:** Allows the locking mechanism to be changed or rekeyed without replacing the entire padlock body.
- **Master Key Integration:** Ideal for incorporating into existing or new master key suites.
- **High-Security Construction:** Solid hardened steel body paired with a hardened boron alloy steel long shackle to resist physical attacks.
- **Weather Resistant:** Electrophoretic finish provides excellent corrosion resistance, making it suitable for harsh outdoor conditions.
- **Manufacturer Guarantee:** Backed by a 10-year guarantee for long-term peace of mind.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
