Brand	Squire
Product type	Body Only

Product Description

The SQUIRE Stronghold SS55HE and SS65HE Open Shackle Padlocks are high-quality, heavy-duty locking solutions designed specifically for use with half Euro cylinders. Featuring a solid hardened steel body and a hardened boron alloy steel shackle, these padlocks provide robust protection against physical attacks. They are purpose-designed for the quick, secure, and easy fitment of 45mm half Euro cylinders without requiring any extra modifications. This makes them an exceptionally cost-effective choice, as you can change or upgrade your locking system without the expense of replacing the entire padlock.

With a highly durable electrophoretic anti-corrosion finish, these weather-resistant padlocks are built to withstand harsh outdoor environments. They are ideal for integration into master key suites and are Secured by Design approved.

These padlocks are available in multiple sizes and security levels to suit your specific requirements. Options include body widths of 55mm or 65mm, body thicknesses of 25mm or 31mm, and varying shackle clearances and weights. Please select your preferred model and specifications from the options below.

Technical Specifications

- **Brand:** Squire
- **Manufacturer Reference:** SS55HE or SS65HE (please choose from the options below)
- **Body Width:** 55mm or 65mm (please choose from the options below)
- **Body Thickness:** 25mm or 31mm (please choose from the options below)
- **Horizontal Clearance:** 22mm or 30mm (please choose from the options below)
- **Vertical Clearance:** 26mm or 30mm (please choose from the options below)
- **Weight:** 510g or 560g (please choose from the options below)
- **Standards & Security:** CEN Grade 3 (CEN 4 rating) or CEN Grade 5 (CEN 5 rating), Secured by Design (please choose from the options below)
- **Cylinder Compatibility:** Fits 45mm half Euro cylinders (not included)
- **Weather Resistant:** Yes, electrophoretic anti-corrosion finish
- **Pack Quantity:** 1
- **Barcode:** Multiple options available (please choose from the options below)
- **Guarantee:** 10 Year

Key Features

- **Solid Hardened Steel Body:** Delivers high-level protection against physical attacks and forced entry.
- **Hardened Boron Alloy Steel Shackle:** Offers excellent resistance to cutting and sawing.
- **Body Only Design:** Specifically engineered to accept standard 45mm half Euro cylinders.
- **Cost-Effective Maintenance:** Allows you to change or rekey the cylinder without replacing the entire padlock body.
- **Master Key Compatible:** Ideal for integrating padlocks into existing master key systems.
- **Corrosion Resistant:** Electrophoretic finish ensures reliable performance in harsh weather conditions.
- **Secured by Design:** Certified to meet police-preferred security standards.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
