Specification Summary

Brand	Squire
Product type	Sliding Shackle

Product Description

The SQUIRE Stronghold Sliding Shackle Padlock Body (ALD/WS75/BO) is a high-security, heavy-duty locking solution designed specifically to accommodate Evva KIK-SS cylinder inserts. This "body only" padlock allows you to easily and securely fit an Evva KIK-SS cylinder with no need to drill, providing a highly cost-effective way to change or upgrade your locking mechanism without replacing the entire padlock.

Constructed with a solid hardened steel body and a 12mm hardened boron alloy steel sliding shackle, this padlock offers exceptional resistance against physical attacks, cutting, and sawing. It features a black electrophoretic finish

for superior corrosion and weather resistance, making it ideal for both indoor and outdoor applications, including warehouses and shipping containers.

With its CEN Grade 4 rating, this padlock is highly secure and is perfect for integration into master key systems. It offers a robust, flexible, and long-lasting security solution for commercial and industrial properties.

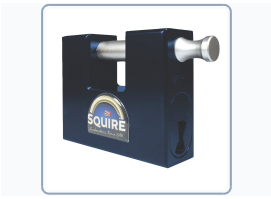

Technical Specifications

- **Brand:** Squire
- **Manufacturer Reference:** ALD/WS75/BO
- **Body Width:** 80mm
- **Body Height:** 65mm
- **Body Depth:** 25mm
- **Shackle Diameter:** 12mm
- **Horizontal Clearance:** 27mm
- **Vertical Clearance:** 14mm
- **Material:** Hardened Steel
- **Finish:** Black
- **Security Rating:** CEN Grade 4
- **Compatibility:** Suits Evva KIK-SS
- **Weather Resistant:** Yes
- **Weight:** 762g

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
