Specification Summary

Brand	Squire
Product type	Sliding Shackle

Product Description

The Squire Stronghold WS75 is a high-security sliding shackle padlock specifically engineered to protect shipping containers, warehouses, commercial vehicles, and industrial units. Featuring a robust 80mm solid hardened steel body and a 12mm hardened boron alloy steel shackle, it is purpose-built to resist the most determined physical attacks, including cutting, sawing, and drilling.

Designed to perform in the harshest environments, the WS75 is finished with a highly corrosion-resistant electrophoretic black coating. Security is further enhanced by a rekeyable 6-pin tumbler mechanism offering over 260,000 key differs, alongside advanced anti-bump and anti-pick protection.

This padlock is available in multiple packaging options (Boxed or Visi visual packs), with weights ranging from 897g to 1.03kg. Please select your preferred packaging, manufacturer reference, and barcode option from the choices below.

Technical Specifications

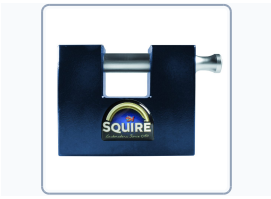

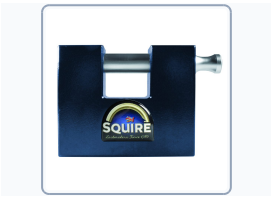

- **Brand:** Squire

- **Body Width:** 80mm
- **Body Height:** 65mm
- **Body Depth:** 30mm
- **Shackle Diameter:** 12mm
- **Horizontal Clearance:** 27mm
- **Vertical Clearance:** 14mm
- **Material:** Hardened steel body with hardened boron alloy steel shackle
- **Finish:** Black electrophoretic coating
- **Security Standard:** CEN Grade 4
- **Key Differs:** 260,000
- **Weight:** 897g to 1.03kg (options available below)
- **Packaging:** Boxed or Visi (options available below)
- **Manufacturer Reference:** WS75 BOXED or WS75 V (options available below)

Key Features

- **High Security:** CEN Grade 4 approved, offering excellent resistance against picking, bumping, and drilling.
- **Robust Construction:** 80mm solid hardened steel body combined with a 12mm hardened boron alloy steel shackle.
- **Weather Resistant:** Electrophoretic black coating provides outstanding corrosion resistance in harsh outdoor conditions.
- **Versatile Application:** Ideal for securing shipping containers, warehouses, gates, perimeters, and commercial vehicles.
- **Rekeyable Mechanism:** Features a rekeyable 6-pin tumbler lock mechanism with over 260,000 key differs.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
