Specification Summary

Brand	Squire
Product type	Through Hardened

Product Description

The Squire Toughlok Hardened Chain offers excellent value for money, combining reliable security with a lightweight design. Made from hardened steel with a square link section, this chain is significantly lighter than standard heavy-duty chains, making it highly portable and easy to carry. It is an ideal choice for securing bicycles, motorbikes, garden furniture, barbecues, tools, and outdoor storage areas.

To protect your belongings and paintwork from scratches, the chain is wrapped in a durable grey protective sleeve. It is designed to be used with a padlock (sold separately) and can be combined with a wall or ground anchor for enhanced security in sheds or garages.

This chain is available in multiple lengths, link diameters, and weights to suit your specific security needs. Please select your preferred options from the choices below.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
