Brand	Squire
Product type	Combination

Product Description

The Squire Vulcan Open Boron Shackle Combination Padlock offers outstanding, key-free security from premium British lock manufacturer Henry Squire & Sons. Engineered to withstand harsh environments and physical attacks, these heavy-duty padlocks feature a robust diecast alloy body and a hardened boron alloy steel shackle.

Operating via a double-locking combination mechanism, they eliminate the hassle of managing keys while maintaining high-level security. Each padlock is fully recodable, allowing you to easily set and reset your own code. Depending on the model selected, they feature either a 4-wheel mechanism (offering 10,000 combinations) or a 5-wheel mechanism (offering 100,000 combinations). For added convenience, they are designed with a soft-feel, dual-compound body cover and a push-to-open button at the bottom for effortless, one-handed operation.

These padlocks are available in a variety of body widths (ranging from 40mm to 60mm), body depths (from 22mm to 33mm), shackle diameters (from 6mm to 10mm), and clearances. They also feature different mechanisms (4-wheel or 5-wheel) and finishes (including Satin Silver and Blue & Silver). Please choose your required size, mechanism, finish, and other specifications from the options below.

Technical Specifications

- Body Width: 40mm, 50mm, or 60mm (please select from the options below)
- Body Depth: 22mm, 26mm, or 33mm (please select from the options below)
- Shackle Diameter: 6mm, 8mm, or 10mm (please select from the options below)
- Vertical Clearance: 20mm, 26mm, or 34mm (please select from the options below)
- Horizontal Clearance: 17mm, 22.6mm, or 28mm (please select from the options below)
- Mechanism: Combination 4-Wheel or 5-Wheel (please select from the options below)
- Shackle Material: Hardened boron alloy steel
- Body Material: Diecast alloy
- Finish: Blue & Silver or Satin Silver (please select from the options below)
- Weather Resistant: Yes

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
