Specification Summary

Brand	Squire
Product type	Open Shackle

Product Description

The Squire Vulcan open shackle padlock range offers a highly attack-resistant security solution for a wide variety of applications. Manufactured by premium lock specialists Henry Squire & Sons Ltd, these padlocks combine a robust diecast steel body with a hardened boron alloy steel shackle to provide excellent resistance against cutting, cropping, and physical attacks.

Each padlock features a double deadlocking and ball locking 4-pin tumbler mechanism to prevent pulling and picking. They are keyed to differ, supplied with two keys, and feature an attractive satin chrome body cover with a blue and silver finish. Designed for durability, they are weather-resistant and come with Squire's standard 10-year guarantee.

These padlocks are available in multiple sizes and configurations. Body widths range from 44mm to 55mm, with shackle diameters from 7mm to 9.5mm. Please select your preferred body width, depth, shackle clearance, and weight from the options below to find the perfect model for your needs.

Technical Specifications

- **Body Width:** 44mm to 55mm (please choose from the options below)
- **Body Depth:** 27mm to 33mm (please choose from the options below)
- **Shackle Diameter:** 7mm to 9.5mm (please choose from the options below)
- **Horizontal Clearance:** 19mm to 22mm (please choose from the options below)

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
