Brand	Squire
Product type	Combination

Product Description

The Squire Warrior Closed Shackle Combination Padlock range offers high-security, key-free protection for your valuables. Manufactured by premium British lock maker Henry Squire & Sons Ltd, these padlocks feature an armoured steel body and a hardened steel shackle, making them highly resistant to physical attacks such as picking, drilling, sawing, and cutting.

Designed with a closed shackle to protect against bolt cropper attacks, the Warrior Combi is ideal for securing sheds, gates, garages, and commercial premises. The weather-resistant design features a soft-feel cover with ergonomic wheels for comfortable, reliable outdoor use.

With no keys to lose, these padlocks are fully recodable, allowing you to change your code whenever required. They are available in a range of sizes and security levels, with 4-wheel mechanisms providing 10,000+ combinations and 5-wheel mechanisms offering 100,000+ combinations. Please choose your preferred body width, shackle diameter, and combination mechanism from the options below.

Technical Specifications

- **Brand:** Squire
- **Body Width:** 45mm, 55mm, or 65mm (please choose from the options below)
- **Body Depth:** 26mm or 34mm (please choose from the options below)

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
