Brand	Squire
Product type	Combination

Product Description

The Squire Warrior Long Shackle Combination Padlock is a heavy-duty, highly attack-resistant security solution designed to protect your valuables without the hassle of keys. Manufactured by the premium British lock maker Henry Squire & Sons Ltd, this padlock features an armoured steel body and a hardened boron alloy steel shackle, making it exceptionally resistant to picking, drilling, sawing, and other physical attacks.

Perfect for securing gates, sheds, bikes, and commercial storage areas, this padlock is fully recodable, allowing you to easily reset your code whenever necessary. It features a soft-feel cover with ergonomic wheels for comfortable, easy operation, even in challenging weather conditions.

This padlock is available in two sizes: a 55mm body width with a 4-wheel mechanism (offering 10,000+ combinations and a 10mm shackle) and a 65mm body width with a 5-wheel mechanism (offering 100,000+ combinations and a 12mm shackle). Both models feature a long 63mm vertical shackle clearance to accommodate larger locking points. Please choose your preferred size, mechanism, and shackle diameter from the options below.

Technical Specifications

- **Brand:** Squire
- **Body Width:** 55mm or 65mm (please choose from the options below)
- **Body Depth:** 34mm
- **Shackle Diameter:** 10mm or 12mm (please choose from the options below)
- **Vertical Clearance:** 63mm
- **Horizontal Clearance:** 23mm or 28mm (please choose from the options below)
- **Mechanism:** 4-Wheel (10,000+ combinations) or 5-Wheel (100,000+ combinations) (please choose from the options below)
- **Finish:** Blue & Silver
- **Material:** Armoured steel body with hardened boron alloy steel shackle
- **Weather Resistant:** Yes
- **Weight:** 556g or 970g (please choose from the options below)

Key Features

- **High Attack Resistance:** Armoured steel body and hardened boron alloy steel shackle protect against picking, drilling, and sawing.
- **Keyless Convenience:** Fully recodable combination mechanism eliminates the need to carry or lose keys.
- **Long Shackle Design:** 63mm vertical clearance provides extra space for securing larger objects like gates and chains.
- **Ergonomic Operation:** Soft-feel cover with user-friendly wheels ensures comfortable code entry.
- **Weatherproof Durability:** Designed to withstand harsh outdoor environments.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
