Specification Summary

Brand	Squire
Product type	Long Shackle

Product Description

The Warrior range of padlocks from premium British lock manufacturer Henry Squire & Sons Ltd offers a high-security, attack-resistant solution for safeguarding your valuables. Featuring a solid armoured steel body and a hardened steel long shackle, these padlocks are ideal for securing bikes, sheds, gates, and commercial equipment.

Designed to withstand harsh outdoor conditions, each padlock is encased in a soft-feel, weather-resistant cover that protects the lock body from the elements while preventing scratches on your secured items. The high-security 5-pin cylinder mechanism is highly resistant to picking, drilling, sawing, and other common forms of attack. For added security, the key can only be withdrawn when the padlock is fully locked, ensuring you never accidentally leave your property unprotected.

These padlocks are available in multiple sizes to suit your security needs. Please choose from the options below to select your preferred body width (ranging from 45mm to 65mm), shackle diameter (8mm to 12mm), horizontal clearance (18mm to 28mm), and weight. Each padlock is supplied with 2 keys and features a stylish blue and silver finish.

Technical Specifications

- **Manufacturer:** Squire
- **Body Material:** Solid armoured steel
- **Shackle Material:** Hardened steel
- **Shackle Type:** Long shackle
- **Mechanism:** 5-pin cylinder
- **Keying:** Keyed to differ (2 keys supplied)

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
