Specification Summary

Brand	Squire
Product type	Open Shackle

Product Description

The Squire Warrior Open Shackle Padlock is a heavy-duty, high-security locking solution from premium manufacturer Henry Squire & Sons Ltd. Engineered to resist aggressive physical attacks, it features a solid armoured steel body and a hardened steel shackle, making it highly resistant to sawing, drilling, and picking. It is ideal for securing valuables such as bikes, sheds, gates, and garages.

Equipped with a 5-pin cylinder mechanism, this padlock features a key-retaining design, ensuring the key can only be withdrawn when the lock is fully secured. A tactile, soft-feel cover protects your belongings from scratches while offering excellent weather resistance for outdoor use.

This padlock is available in multiple sizes and specifications. Please choose your preferred body width, shackle diameter, clearances, finish, and weight from the options below.

Technical Specifications

- **Body Width:** 45mm or 55mm (please choose from the options below)
- **Shackle Diameter:** 8mm or 10mm (please choose from the options below)
- **Horizontal Clearance:** 20mm or 24mm (please choose from the options below)
- **Vertical Clearance:** 20mm or 30mm (please choose from the options below)

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
