Brand	Statham Engineering
Product type	Brackets

Product Description

The STATHAM ENGINEERING Slide On Angle is a precision-manufactured fitting designed for use in workshop, jig, and tooling applications. Ideal for setups requiring adjustable or fixed angled support, this high-quality component is a reliable choice for engineers, locksmiths, and fabricators working on bespoke projects.

Engineered for secure slide-on mounting, it enables swift installation and dependable positioning. Its robust construction ensures long-lasting durability and strong bracing support, making it highly effective for custom jigs and fixtures.

This slide-on angle is available in a variety of widths, weights, and manufacturer references. Please select your required specifications from the options below to find the perfect fit for your specific application.

Technical Specifications

- **Brand:** Statham Engineering
- **Finish:** Silver
- **Width:** 22.5mm to 44mm (multiple options available; please choose below)
- **Weight:** 220g to 230g (multiple options available; please choose below)
- **Manufacturer Reference:** 7616, 7619, 9643, 9644, or 10291 (please choose below)
- **Barcode:** Multiple options available (please choose below)

Key Features

- **Versatile Application:** Ideal for workshop, jig, and tooling setups requiring adjustable or fixed angled support.
- **Easy Installation:** Designed for quick and secure slide-on attachment to compatible jigs or fixtures.
- **Durable Construction:** High-quality materials ensure a long service life and reliable bracing.
- **Professional Choice:** A go-to component for engineers, locksmiths, and fabricators.
- **Multiple Sizes:** Available in a range of widths and weights to suit bespoke requirements.
