Specification Summary

Brand	Supra
Product type	Key Safe

Product Description

The Supra 001324 Slim Line Key Safe is a compact, surface-mounted key storage solution designed for domestic or light commercial use. Ideal for providing secure, controlled access to family members, carers, cleaners, or staff, this slimline key safe can hold 2 to 3 standard cylinder keys or 1 mortice key.

Equipped with a mechanical 10-push-button keypad, it allows you to set a custom combination of 5 to 7 digits, offering over 1,000 possible code combinations for reliable security. The unit is supplied complete with a weatherproof cover, which not only protects the lock mechanism from the elements but also acts as a shroud to keep the safe discreetly hidden from view.

Constructed for easy surface mounting, this durable key safe comes complete with a fitting kit, making installation straightforward on external walls.

Technical Specifications

- **Brand:** Supra
- **Manufacturer Reference:** 1324 (001324)
- **Finish:** Grey
- **External Dimensions:** 98mm (H) x 58mm (W) x 36mm (D)

Brand Profile

Supra

Supra is a well-known **key safe / key management** brand in the UK trade, most associated with the **C500 / C500 Pro** style **push-button mechanical key safes** used for managed access (care providers, trades, landlords, holiday lets, facilities teams) where you need controlled entry without leaving a spare key under the world's most obvious plant pot.

In the UK, Supra is closely tied to **Supra (UK) Ltd**, which trades as **The Key Safe Company** (their distribution arm, active since **1996**) and positions itself as a leading UK access-management specialist bringing brands like **Supra™** and **KeySafe™** to market.

What Supra is known for

- **High-security mechanical key safes** (not "smart", not app-based — just robust, outdoor-rated, code access).
- Flagship units like the **Supra C500 Pro** are widely marketed as **"police preferred"** and sold as high-attack-resistance models with installer-friendly features (capacity for multiple keys, weather covers, clutch/anti-force mechanisms depending on model/retailer).
- Some listings explicitly reference **LPCB LPS 1175 Issue 8 A5** attack testing for the C500 Pro line (that's "this has been tested by people whose hobby is breaking things").

Important "don't-mix-the-brands" note

There's also **Supra Systems** in the US market — the electronic lockbox / credential ecosystem used heavily in real estate — which sits under **Honeywell** after Honeywell completed the acquisition of **Carrier's Global Access Solutions** business (which included Supra). Same name, different universe: one is property access lockboxes for agents; the other is the familiar UK wall-mounted key safe world.
