Specification Summary

Brand	Supra
Product type	Key Cabinet

Product Description

The SUPRA 0017 Key Cabinet (also known as the Kidde 001795) provides a secure, organised, and highly durable solution for managing up to 30 keys. Designed specifically for commercial environments, offices, schools, hotels, and property management agencies, this wall-mounted cabinet ensures that your keys are kept safe yet easily accessible to authorised personnel.

Constructed from heavy-gauge steel with a continuous hinge, this key cabinet offers superior resistance to tampering and forced entry compared to standard cabinets. It features a keyless pushbutton combination lock, eliminating the need for physical keys and the risk of lost keys. Inside, the cabinet is equipped with numbered key hooks to make identification and organisation straightforward.

Technical Specifications

- **Brand:** Supra
- **Manufacturer Reference:** 1795 (001795)
- **Capacity:** 30 keys
- **Lock Type:** Keyless pushbutton combination lock
- **Differs:** 1 million

- **Material:** Heavy-gauge steel
- **Hinge Type:** Continuous hinge
- **Finish:** Grey
- **Height:** 300mm
- **Width:** 200mm
- **Depth:** 60mm

Brand Profile

Supra

Supra is a well-known **key safe / key management** brand in the UK trade, most associated with the **C500 / C500 Pro** style **push-button mechanical key safes** used for managed access (care providers, trades, landlords, holiday lets, facilities teams) where you need controlled entry without leaving a spare key under the world's most obvious plant pot.

In the UK, Supra is closely tied to **Supra (UK) Ltd**, which trades as **The Key Safe Company** (their distribution arm, active since **1996**) and positions itself as a leading UK access-management specialist bringing brands like **Supra™** and **KeySafe™** to market.

What Supra is known for

- **High-security mechanical key safes** (not "smart", not app-based — just robust, outdoor-rated, code access).
- Flagship units like the **Supra C500 Pro** are widely marketed as **"police preferred"** and sold as high-attack-resistance models with installer-friendly features (capacity for multiple keys, weather covers, clutch/anti-force mechanisms depending on model/retailer).
- Some listings explicitly reference **LPCB LPS 1175 Issue 8 A5** attack testing for the C500 Pro line (that's "this has been tested by people whose hobby is breaking things").

Important "don't-mix-the-brands" note

There's also **Supra Systems** in the US market — the electronic lockbox / credential ecosystem used heavily in real estate — which sits under **Honeywell** after Honeywell completed the acquisition of **Carrier's Global Access Solutions** business (which included Supra). Same name, different universe: one is property access lockboxes for agents; the other is the familiar UK wall-mounted key safe world.
