Specification Summary

Brand	Supra
Product type	Key Safe

Product Description

The Supra 111S7 Large Key Safe is a highly practical, surface-mounted storage solution designed to securely hold multiple keys or access cards. Its spacious internal capacity makes it an ideal choice for office environments, commercial properties, or shared access areas where larger keys and proximity cards need to be stored.

Constructed with a durable, recessed lid for enhanced tamper resistance, this key safe utilises convenient push-button technology, allowing you to easily set and change your combination code as required. To ensure long-lasting performance in outdoor environments, it comes complete with a black neoprene cover that provides excellent weather protection.

The safe is supplied boxed as a complete kit, including a code-setting tool and a set of heavy-duty fixings suitable for mounting directly onto brick or concrete surfaces.

Technical Specifications

- **Brand:** Supra
- **Manufacturer Reference:** 111S7
- **Part Number:** L11533
- **External Height:** 120mm
- **External Width:** 89mm
- **External Depth:** 63mm
- **Internal Height:** 95mm
- **Internal Width:** 54mm
- **Internal Depth:** 44mm
- **Finish:** Black
- **Weight:** 1.728kg
- **Guarantee:** 2 Year
- **Packaging:** Boxed

Key Features

- **Spacious Storage:** Large internal capacity easily accommodates multiple keys, larger keys, or access cards.
- **Weather Protection:** Supplied with a black neoprene cover to shield the unit from harsh weather conditions.
- **Tamper Resistant:** Features a durable, recessed lid design to resist unauthorised access and tampering.
- **Convenient Push-Button Operation:** Simple push-button mechanism makes changing and entering combinations quick and easy.
- **Complete Installation Kit:** Comes with a code-setting tool and fixings suitable for brick or concrete surfaces.

Brand Profile

Supra

Supra is a well-known **key safe / key management** brand in the UK trade, most associated with the **C500 / C500 Pro** style **push-button mechanical key safes** used for managed access (care providers, trades, landlords, holiday lets, facilities teams) where you need controlled entry without leaving a spare key under the world's most obvious plant pot.

In the UK, Supra is closely tied to **Supra (UK) Ltd**, which trades as **The Key Safe Company** (their distribution arm, active since **1996**) and positions itself as a leading UK access-management specialist bringing brands like **Supra™** and **KeySafe™** to market.

What Supra is known for

- **High-security mechanical key safes** (not "smart", not app-based — just robust, outdoor-rated, code access).
- Flagship units like the **Supra C500 Pro** are widely marketed as **"police preferred"** and sold as high-attack-resistance models with installer-friendly features (capacity for multiple keys, weather covers, clutch/anti-force mechanisms depending on model/retailer).
- Some listings explicitly reference **LPCB LPS 1175 Issue 8 A5** attack testing for the C500 Pro line (that's "this has been tested by people whose hobby is breaking things").

Important "don't-mix-the-brands" note

There's also **Supra Systems** in the US market — the electronic lockbox / credential ecosystem used heavily in real estate — which sits under **Honeywell** after Honeywell completed the acquisition of **Carrier's Global Access Solutions** business (which included Supra). Same name, different universe: one is property access lockboxes for agents; the other is the familiar UK wall-mounted key safe world.
