Specification Summary

Brand	Supra
Product type	Key Safe

Product Description

The Supra Kidde 001017 Portable Over The Door Mount Key Safe provides a convenient, non-permanent solution for key storage. Designed to hang easily over the top of a door, this key safe requires no drilling or permanent wall fixings, making it an excellent choice for temporary access, rental properties, holiday homes, or scheduled visits from carers and maintenance staff. Once the door is closed, the mounting bracket is securely held in place.

Equipped with a user-friendly push-button keypad, the safe allows for quick, keyless entry. The combination code can be changed as frequently as required, ensuring you can easily manage and restrict access whenever necessary. With a compact yet robust design, it can hold up to three standard keys.

Its durable construction is finished in a neutral grey, offering a practical and reliable way to manage property access without permanent modifications to your building's exterior.

Brand Profile

Supra

Supra is a well-known **key safe / key management** brand in the UK trade, most associated with the **C500 / C500 Pro** style **push-button mechanical key safes** used for managed access (care providers, trades, landlords, holiday lets, facilities teams) where you need controlled entry without leaving a spare key under the world's most obvious plant pot.

In the UK, Supra is closely tied to **Supra (UK) Ltd**, which trades as **The Key Safe Company** (their distribution arm, active since **1996**) and positions itself as a leading UK access-management specialist bringing brands like **Supra™** and **KeySafe™** to market.

What Supra is known for

- **High-security mechanical key safes** (not "smart", not app-based — just robust, outdoor-rated, code access).
- Flagship units like the **Supra C500 Pro** are widely marketed as **"police preferred"** and sold as high-attack-resistance models with installer-friendly features (capacity for multiple keys, weather covers, clutch/anti-force mechanisms depending on model/retailer).
- Some listings explicitly reference **LPCB LPS 1175 Issue 8 A5** attack testing for the C500 Pro line (that's "this has been tested by people whose hobby is breaking things").

Important "don't-mix-the-brands" note

There's also **Supra Systems** in the US market — the electronic lockbox / credential ecosystem used heavily in real estate — which sits under **Honeywell** after Honeywell completed the acquisition of **Carrier's Global Access Solutions** business (which included Supra). Same name, different universe: one is property access lockboxes for agents; the other is the familiar UK wall-mounted key safe world.
