Product type	Post Box

Product Description

The SURE24 Slimline Anti Arson Post Box (MSSL90) is an innovative security solution designed to protect homes and businesses against arson, hate crimes, and vandalism. This slimline mailbox features an integrated Pyroflex FE-25 tube fire extinguisher that automatically activates when heat rises. Upon activation, it releases a non-flammable liquid that remains inside the mailbox to extinguish the fire and prevent re-ignition.

To further contain potential hazards, the post box is fitted with a neoprene seal around the opening. This creates an airtight environment that starves any internal fire of oxygen. In addition to fire protection, it effectively guards against other forms of vandalism, such as the insertion of fireworks, rubbish, or liquids, while still easily accommodating standard-sized mail and newspapers.

Constructed with a front drop-down door for easy mail retrieval, this key-locking post box offers a cost-effective and reliable way to secure your property.

Technical Specifications

- **Brand:** Sure24
- **Manufacturer Reference:** MSSL90
- **Barcode:** 5056240111001

- **Finish:** White
- **Height:** 510mm
- **Width:** 330mm
- **Depth:** 88mm
- **Weight:** 4.7kg
