Specification Summary

Brand	Tessi
Product type	Shutter Locks

Product Description

The Tessi 6440 Ultra Narrow Central Shutter Lock is a compact and reliable security solution designed specifically for roller shutters and gates. Engineered for installations where space is at a premium, its ultra-narrow profile allows it to fit seamlessly into tight shutter channels.

Typically mounted in the centre on the inside of the door, this lock features dual-extending side arms. When the key is turned, both arms shoot outwards to connect with the shutter's locking bars, securely anchoring the shutter into both sides of the frame for enhanced protection. The polished brass cylinder protrudes through the door, offering smooth and convenient key access from the exterior.

Supplied complete with two keys, the Tessi 6440 is an ideal choice for securing commercial or domestic roller shutter doors.

Technical Specifications

- **Brand:** Tessi
- **Manufacturer Reference:** 6440
- **Body Length:** 202mm
- **Body Width:** 30mm

- **Body Depth:** 10mm

Brand Profile

Tessi

TESSI is a trade security brand best known as a **supplier of roller shutter locks**—the practical, site-proven stuff used on **roller shutters, gates, and similar metal closures** where you want a straightforward mechanical lock that's easy to fit, easy to replace, and hard to "accidentally" defeat with a big screwdriver and confidence.

Aldridge describes TESSI as having products **used in the industry for over 20 years**, with a range of shutter locks to suit multiple applications.

What TESSI is known for (the stuff you actually see on shelves)

- **Centre shutter locks** (e.g., the **6410** pattern), typically a compact lock body that throws locking arms/bolts across the shutter/gate.
- **Bullet shutter locks** in common formats like **oval and round-faced** models (e.g., **6460/6461**), designed so the "bullet" tail engages into the shutter/door to prevent opening.
- **Genuine key blanks** for the matching lock families (6410/6430/6460/6461 and cruciform variants like 6440).
