Brand	Thomas Glover
Product type	Accessory

Product Description

The Thomas Glover P8022 Ceramic Break Tube is a high-quality replacement cartridge designed for use with both Mk I and Mk II Redlam panic bolts. These ceramic tubes (often referred to as Ceramtubes™) are an essential component of emergency exit systems, ensuring that the panic bolt remains secure under normal conditions while allowing for rapid, reliable release during an emergency.

Unlike traditional glass tubes, these ceramic cartridges are specifically designed to break cleanly without producing sharp edges when smashed. This makes them particularly suitable for sensitive environments, such as the food industry, schools, and public buildings, where the risk of injury or contamination from broken glass must be minimised.

Please note that this product is supplied as a single loose item (pack quantity of 1), making it easy to order the exact number of replacements you need to keep your emergency exit hardware fully operational.

Technical Specifications

- **Brand:** Thomas Glover
- **Manufacturer Reference:** 46/57050
- **Product Code:** L4109
- **Barcode:** 5055120608792
- **Material:** Ceramic
- **Length:** 12.3cm
- **Outer Diameter (Width):** 18mm
- **Inner Diameter:** 13mm
- **Weight:** 20g
- **Handing:** Reversible
- **Pack Quantity:** 1 (Loose)
- **Compatibility:** Fits Mk I and Mk II Redlam panic bolts
