Product Description

The Thomas Glover P8034 Keep Plate is a dedicated flat keep designed specifically to suit the Thomas Glover 32951 Redlam Mk2 Break Glass Bolt. This replacement keep plate provides a reliable and secure strike point for the panic bolt, ensuring emergency exit doors remain firmly closed and secure until required.

Manufactured from durable steel, the P8034 flat keep is built to withstand the demands of commercial and public environments. It serves as an essential component for maintaining or restoring the functionality of your emergency exit hardware, ensuring safety and security. This product is supplied as a single unit (loose packaging) and is quick and straightforward to install.
