Product Description

The TrioVing 2016 cylinder lock case is a reliable mortice lock case designed primarily for residential and interior doors. Previously known under the part number 5022 (and also referred to as the Boda 2016 or Abloy 2016), this lock case is physically identical to the original model, making it a perfect retro-fit replacement for older installations.

Engineered for versatility, this lock case is completely non-handed, allowing it to be used on both left and right-handed doors. The latchbolt can be easily reversed by pulling it out and rotating it 180 degrees. It is specifically designed to be used in conjunction with TrioVing's Scandinavian-style oval cylinders (often referred to as Norwegian oval cylinders) and can be operated using either a key or a thumbturn. When locked, the deadbolt provides a secure 14mm protrusion for reliable door closure.

Technical Specifications

- **Manufacturer:** TrioVing (ASSA ABLOY)
- **Model:** 2016 (replaces old part number 5022)
- **Cylinder Compatibility:** Scandinavian / Norwegian oval cylinders
- **Handing:** Non-handed (reversible latchbolt)
- **Deadbolt Protrusion:** 14mm
- **Finish:** Zinc

Key Features

- **Direct Replacement:** Directly replaces the legacy TrioVing 5022 lock case with identical dimensions and fitting.
- **Universal Handing:** Non-handed design with an easily reversible latchbolt to suit both left and right-handed doors.
- **Smooth Operation:** Designed for reliable, everyday use on residential and interior doors.
- **Flexible Locking:** Compatible with oval cylinders for key or thumbturn operation.

Brand Profile

TrioVing

TrioVing is a Norwegian lock and door-hardware brand with deep roots in Scandinavia's "make it survive winter and humans" engineering tradition. The modern TrioVing name comes from a series of mergers in Norway's lock industry: **TRIO** was formed in **1904** by the merger of three lock/fittings companies, **VING** formed in **1950**, and the two combined in **1971** to create **TrioVing A/S**, which became Norway's leading lock company.

In **1983**, Finland's **Abloy** entered the Norwegian market by acquiring **TrioVing's Locks and Security** (along with VingCard's hotel security business), pulling TrioVing into the broader Nordic consolidation story that eventually became ASSA ABLOY.

What TrioVing is especially known for today is robust, **Scandinavian-style lockcases and hardware**—including **stainless steel mortice lockcases** that show up in **high-end Scandinavian doors** and **marine applications**, where corrosion resistance isn't a "nice to have," it's the entire point.
