Brand Profile

TrioVing

TrioVing is a Norwegian lock and door-hardware brand with deep roots in Scandinavia's "make it survive winter and humans" engineering tradition. The modern TrioVing name comes from a series of mergers in Norway's lock industry: **TRIO** was formed in **1904** by the merger of three lock/fittings companies, **VING** formed in **1950**, and the two combined in **1971** to create **TrioVing A/S**, which became Norway's leading lock company.

In **1983**, Finland's **Abloy** entered the Norwegian market by acquiring **TrioVing's Locks and Security** (along with VingCard's hotel security business), pulling TrioVing into the broader Nordic consolidation story that eventually became ASSA ABLOY.

What TrioVing is especially known for today is robust, **Scandinavian-style lockcases and hardware**—including **stainless steel mortice lockcases** that show up in **high-end Scandinavian doors** and **marine applications**, where corrosion resistance isn't a "nice to have," it's the entire point.
