## Product Description

The TrioVing 5312 Full Lock Set with Round Rose is a heavy-duty, highly durable locking solution designed primarily for marine and shipping environments. Built to withstand demanding conditions, this complete kit provides everything required for a secure and functional door installation.

This comprehensive lock set includes a robust 5312 lock case, a pair of 7363 satin steel handles, a 5520 external cylinder supplied with three keys, a 5541 internal thumb turn, and a pair of round handle roses. To accommodate different door configurations, the set also includes a pair of internal and external oval escutcheons. These escutcheons are available in 6mm, 12mm, or 18mm thicknesses - please select your preferred size from the options below.

For added convenience, the 5312 lock case is fully reversible on-site, allowing it to be easily configured for either left or right-handed doors. An optional 5935 strike plate and 7509 handle rose is also available separately to complete your installation.

## Technical Specifications

- **Lock Case:** TrioVing 5312 (reversible on-site for left or right-hand doors)
- **Handles:** TrioVing 7363 satin steel lever handles
- **External Cylinder:** TrioVing 5520 oval cylinder (supplied with 3 keys)
- **Internal Turn:** TrioVing 5541 thumb turn
- **Escutcheons:** Pair of oval escutcheons (available in 6mm, 12mm, or 18mm thicknesses)
- **Optional Roses:** Pair of 7509 round handle roses
- **Spindle Size:** 8mm square spindle
- **Application:** Ideal for marine, shipping, and heavy-duty industrial doors

## Key Features

- **Complete Lock Set:** Includes the lock case, handles, cylinder, thumb turn, roses, and escutcheons for a hassle-free installation.
- **Marine-Grade Durability:** Specifically designed to withstand harsh marine and coastal environments.
- **On-Site Reversibility:** The lock case handing can be easily swapped on-site to suit both left and right-handed doors.
- **Flexible Sizing:** Oval escutcheons are available in multiple thicknesses (6mm, 12mm, and 18mm) to suit your specific door requirements.
- **Convenient Operation:** Features key entry from the outside and a quick-release thumb turn on the inside for safety and ease of use.

## Brand Profile

TrioVing

**TrioVing** is a Norwegian lock and door-hardware brand with deep roots in Scandinavia's "make it survive winter and humans" engineering tradition. The modern TrioVing name comes from a series of mergers in Norway's lock industry: **TRIO** was formed in **1904** by the merger of three lock/fittings companies, **VING** formed in **1950**, and the two combined in **1971** to create **TrioVing A/S**, which became Norway's leading lock company.

In **1983**, Finland's **Abloy** entered the Norwegian market by acquiring **TrioVing's Locks and Security** (along with VingCard's hotel security business), pulling TrioVing into the broader Nordic consolidation story that eventually became ASSA ABLOY.

What TrioVing is especially known for today is robust, **Scandinavian-style lockcases and hardware**—including **stainless steel mortice lockcases** that show up in **high-end Scandinavian doors** and **marine applications**, where corrosion resistance isn't a "nice to have," it's the entire point.
