Product Description

The TrioVing 5312 Full Lockset is a complete, high-quality door hardware solution designed for exceptional durability and long-lasting performance. This robust lockset is widely trusted for demanding applications, including marine environments and high-end Scandinavian doors, where reliable operation is essential.

This comprehensive package contains all the core components needed for a full installation. It features the versatile TrioVing 5312 lock case, which can be easily swapped on-site to suit either left or right-handed doors. The set also includes a pair of premium 7363 satin steel handles, a 5520 external cylinder supplied with three keys, a 5541 internal thumb turn for convenient locking from the inside, and 8660 long plate escutcheons.

An optional 5935 strike plate is also available to complete your setup. Please select your required configuration from the options below.

Technical Specifications

- **Lock Case:** TrioVing 5312 (reversible latch, can be swapped on-site)
- **Handles:** TrioVing 7363 satin steel handles
- **External Cylinder:** TrioVing 5520 (supplied with 3 keys)
- **Internal Thumb Turn:** TrioVing 5541

Brand Profile

TrioVing

TrioVing is a Norwegian lock and door-hardware brand with deep roots in Scandinavia's "make it survive winter and humans" engineering tradition. The modern TrioVing name comes from a series of mergers in Norway's lock industry: **TRIO** was formed in **1904** by the merger of three lock/fittings companies, **VING** formed in **1950**, and the two combined in **1971** to create **TrioVing A/S**, which became Norway's leading lock company.

In **1983**, Finland's **Abloy** entered the Norwegian market by acquiring **TrioVing's Locks and Security** (along with VingCard's hotel security business), pulling TrioVing into the broader Nordic consolidation story that eventually became ASSA ABLOY.

What TrioVing is especially known for today is robust, **Scandinavian-style lockcases and hardware**—including **stainless steel mortice lockcases** that show up in **high-end Scandinavian doors** and **marine applications**, where corrosion resistance isn't a "nice to have," it's the entire point.
