Specification Summary

Brand	TrioVing
Product type	TrioVing Shop

Product Description

The TrioVing 5382/8 is a heavy-duty sliding door lock case designed specifically for patio doors and marine or boat sliding doors. Part of the renowned TrioVing 53 Series, this high-quality lock case is engineered to withstand demanding environments, making it a popular choice for both residential patio doors and marine vessels.

Constructed with a durable stainless steel finish, the 5382/8 features a double hook bolt mechanism that provides robust security and a reliable hold on sliding doors. It comes with a 55mm backset and an 8mm handle hub, ensuring compatibility with standard marine and patio door hardware. This lock case is supplied as the lock case only, making it an ideal replacement part for existing worn or damaged units.

Technical Specifications

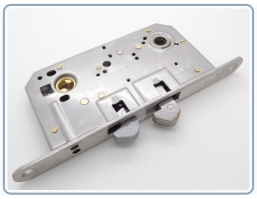

- **Brand:** TrioVing
- **Series:** 53 Series Lockcase
- **Manufacturer Reference:** 5382/8
- **Backset:** 55mm
- **Handle Hub:** 8mm (5/16")
- **Faceplate Length:** 210mm

- **Lockcase Height:** 150mm
- **Lockcase Length:** 80mm
- **Lockcase Width:** 16mm
- **Finish:** Stainless Steel
- **Weight:** 602g

Brand Profile

TrioVing

TrioVing is a Norwegian lock and door-hardware brand with deep roots in Scandinavia's "make it survive winter and humans" engineering tradition. The modern TrioVing name comes from a series of mergers in Norway's lock industry: **TRIO** was formed in **1904** by the merger of three lock/fittings companies, **VING** formed in **1950**, and the two combined in **1971** to create **TrioVing A/S**, which became Norway's leading lock company.

In **1983**, Finland's **Abloy** entered the Norwegian market by acquiring **TrioVing's Locks and Security** (along with VingCard's hotel security business), pulling TrioVing into the broader Nordic consolidation story that eventually became ASSA ABLOY.

What TrioVing is especially known for today is robust, **Scandinavian-style lockcases and hardware**—including **stainless steel mortice lockcases** that show up in **high-end Scandinavian doors** and **marine applications**, where corrosion resistance isn't a "nice to have," it's the entire point.
