Product Description

The TrioVing 5511 Euro Profile Thumb Turn Cylinder is a high-quality, reliable locking solution designed for doors requiring a continental Euro-profile cylinder. This cylinder features a convenient thumb turn on the inside, allowing for quick and easy locking and unlocking without a key, while the external side is operated by a key for secure access.

Finished in a sleek satin chrome, this cylinder is both durable and aesthetically pleasing, blending seamlessly with modern door hardware. It features an offset split of 39mm on the internal side and 49mm on the external side.

Supplied complete with three keys, this cylinder is ideal for both domestic and commercial applications. For custom security setups, keyed alike and master keying options are available upon request. Please contact us via email to discuss your requirements, pricing, and lead times.

Brand Profile

TrioVing

TrioVing is a Norwegian lock and door-hardware brand with deep roots in Scandinavia's "make it survive winter and humans" engineering tradition. The modern TrioVing name comes from a series of mergers in Norway's lock industry: **TRIO** was formed in **1904** by the merger of three lock/fittings companies, **VING** formed in **1950**, and the two combined in **1971** to create **TrioVing A/S**, which became Norway's leading lock company.

In **1983**, Finland's **Abloy** entered the Norwegian market by acquiring **TrioVing's Locks and Security** (along with VingCard's hotel security business), pulling TrioVing into the broader Nordic consolidation story that eventually became ASSA ABLOY.

What TrioVing is especially known for today is robust, **Scandinavian-style lockcases and hardware**—including **stainless steel mortice lockcases** that show up in **high-end Scandinavian doors** and **marine applications**, where corrosion resistance isn't a "nice to have," it's the entire point.
