Specification Summary

Brand	TrioVing
Product type	TrioVing Shop

Product Description

The TrioVing 5537 Internal Oval Cylinder is designed as the internal lock component for TrioVing Scandinavian oval cylinders, which are typically operated in pairs. This high-quality cylinder works in tandem with an external cylinder to provide independent operation of the lock case inside the door.

It can be supplied in either short tail or extended tail versions to suit your door's specific installation requirements. Additionally, please note that the corresponding internal thumb turn component is the TrioVing 5542.

This internal cylinder is available in several finishes, including Brass, Chrome, and Satin Steel. Please select your preferred finish from the options below.

Technical Specifications

- **Manufacturer:** TrioVing
- **Cylinder Type:** Scandinavian Oval (Internal)
- **Tail Options:** Short tail or extended tail
- **Compatible Thumb Turn:** TrioVing 5542
- **Available Finishes:** Brass, Chrome, and Satin Steel (please select below)

Key Features

- **Dual Cylinder Operation:** Designed to work as the internal component of a pair of oval cylinders operating the lock case.
- **Tail Length Versatility:** Available in short tail or extended tail versions to accommodate different door thicknesses.
- **Multiple Finish Options:** Choose from Brass, Chrome, or Satin Steel to seamlessly match your door's aesthetic.
- **Genuine TrioVing Part:** High-quality construction from a leading Scandinavian security manufacturer.

Brand Profile

TrioVing

TrioVing is a Norwegian lock and door-hardware brand with deep roots in Scandinavia's "make it survive winter and humans" engineering tradition. The modern TrioVing name comes from a series of mergers in Norway's lock industry: **TRIO** was formed in **1904** by the merger of three lock/fittings companies, **VING** formed in **1950**, and the two combined in **1971** to create **TrioVing A/S**, which became Norway's leading lock company.

In **1983**, Finland's **Abloy** entered the Norwegian market by acquiring **TrioVing's Locks and Security** (along with VingCard's hotel security business), pulling TrioVing into the broader Nordic consolidation story that eventually became ASSA ABLOY.

What TrioVing is especially known for today is robust, **Scandinavian-style lockcases and hardware**—including **stainless steel mortice lockcases** that show up in **high-end Scandinavian doors** and **marine applications**, where corrosion resistance isn't a "nice to have," it's the entire point.
