Product Description

The TrioVing 5541 thumbturn cylinder is a high-quality, reliable door hardware component designed for use with TrioVing lock cases. It is most commonly paired with the 5312 and 5316 lock cases, and is frequently used alongside the 5520 cylinder in composite doors. It is also compatible with other '53' series lockcases, and was previously known under the old part number TrioVing 5543.

This thumbturn cylinder provides smooth, easy operation from the inside of the door, offering both convenience and security. It is available in three attractive finishes - brass, satin steel, and polished chrome - allowing you to match your existing door hardware. Please select your preferred finish from the options below.

Please note that TrioVing products are custom shipped and typically take approximately 7 to 10 days to arrive. If your order is urgent, please contact us directly to check stock availability and estimated delivery times.

Brand Profile

TrioVing

TrioVing is a Norwegian lock and door-hardware brand with deep roots in Scandinavia's "make it survive winter and humans" engineering tradition. The modern TrioVing name comes from a series of mergers in Norway's lock industry: **TRIO** was formed in **1904** by the merger of three lock/fittings companies, **VING** formed in **1950**, and the two combined in **1971** to create **TrioVing A/S**, which became Norway's leading lock company.

In **1983**, Finland's **Abloy** entered the Norwegian market by acquiring **TrioVing's Locks and Security** (along with VingCard's hotel security business), pulling TrioVing into the broader Nordic consolidation story that eventually became ASSA ABLOY.

What TrioVing is especially known for today is robust, **Scandinavian-style lockcases and hardware**—including **stainless steel mortice lockcases** that show up in **high-end Scandinavian doors** and **marine applications**, where corrosion resistance isn't a "nice to have," it's the entire point.
