Specification Summary

Brand	TrioVing
Product type	TrioVing Shop

Product Description

The TrioVing 5585/50 lock case is a high-quality, automatic deadlocking latch lock designed for entrance doors, gates, and swing doors. It is particularly well-suited for doors fitted with pull handles, door closers, or door automation systems.

This lock case features an automatic deadlocking latchbolt that secures the door as soon as it is closed. To retract the latchbolt and revoke the deadlock, a simple 75-degree turn of either the key or the thumbturn is required. For added convenience, the cylinder latch can also be locked back into the lock case using a key, allowing the door to remain unlocked when free access is required.

This product is available in both Left Hand and Right Hand configurations to suit your door's opening direction. Please select your required handing option from the selection below.

Technical Specifications

- **Brand:** TrioVing
- **Backset:** 50mm
- **Handing:** Left Hand or Right Hand (please select from the options below)
- **Operation:** 75° turn of key or thumbturn retracts latchbolt

- **Lock Case Depth:** 74mm

Key Features

- **Automatic Deadlocking:** Latchbolt deadlocks automatically when the door is closed.
- **Lock-Back Function:** Cylinder latch can be locked back into the lock case with a key for flexible access.

Brand Profile

TrioVing

TrioVing is a Norwegian lock and door-hardware brand with deep roots in Scandinavia's "make it survive winter and humans" engineering tradition. The modern TrioVing name comes from a series of mergers in Norway's lock industry: **TRIO** was formed in **1904** by the merger of three lock/fittings companies, **VING** formed in **1950**, and the two combined in **1971** to create **TrioVing A/S**, which became Norway's leading lock company.

In **1983**, Finland's **Abloy** entered the Norwegian market by acquiring **TrioVing's Locks and Security** (along with VingCard's hotel security business), pulling TrioVing into the broader Nordic consolidation story that eventually became ASSA ABLOY.

What TrioVing is especially known for today is robust, **Scandinavian-style lockcases and hardware**—including **stainless steel mortice lockcases** that show up in **high-end Scandinavian doors** and **marine applications**, where corrosion resistance isn't a "nice to have," it's the entire point.
