Product Description

The TrioVing 5866 Furniture Lock is a premium-grade locking solution designed to secure cabinets, cupboards, drawers, and other wooden furniture. Combining robust construction with a sleek, modern aesthetic, this lock features a durable satin chrome finish that complements a wide range of contemporary interior designs.

Supplied with three keys as standard, the TrioVing 5866 is highly versatile and suitable for doors with a thickness of 13mm to 21mm. It is available in both left-hand and right-hand handing options to suit your specific installation requirements.

For larger installations or commercial environments, keyed alike options and master keying systems are available. Please contact our team directly for pricing, lead times, and custom keying configurations.

Brand Profile

TrioVing

TrioVing is a Norwegian lock and door-hardware brand with deep roots in Scandinavia's "make it survive winter and humans" engineering tradition. The modern TrioVing name comes from a series of mergers in Norway's lock industry: **TRIO** was formed in **1904** by the merger of three lock/fittings companies, **VING** formed in **1950**, and the two combined in **1971** to create **TrioVing A/S**, which became Norway's leading lock company.

In **1983**, Finland's **Abloy** entered the Norwegian market by acquiring **TrioVing's Locks and Security** (along with VingCard's hotel security business), pulling TrioVing into the broader Nordic consolidation story that eventually became ASSA ABLOY.

What TrioVing is especially known for today is robust, **Scandinavian-style lockcases and hardware**—including **stainless steel mortice lockcases** that show up in **high-end Scandinavian doors** and **marine applications**, where corrosion resistance isn't a "nice to have," it's the entire point.
