Product Description

The TrioVing 5935 Cylinder Extension Pieces are designed specifically for use with TrioVing 5520 and 5541 cylinders. These high-quality spacer components allow you to extend the cylinder length to suit thicker doors or specific hardware configurations, ensuring a secure and precise fit.

These extension pieces are available in a range of sizes to accommodate various installation requirements. Please select your required size from the options below.

Please note that these items are special order. Please email us directly at info@lockandkey.co.uk to get a confirmed ETA and quote.

Technical Specifications

- **Manufacturer:** TrioVing
- **Model:** 5935
- **Compatibility:** Designed for use with TrioVing 5520 and 5541 cylinders
- **Available Sizes:** 15mm, 30mm, 40mm, 45mm, 57mm, 80mm, and 125mm

Key Features

- **Genuine TrioVing Component:** Ensures reliable performance and seamless compatibility with compatible TrioVing cylinders.
- **Flexible Sizing Options:** Available in multiple extension lengths to suit different door thicknesses and hardware setups.
- **Durable Construction:** Built to high standards to ensure long-lasting reliability.
- **Special Order Item:** Custom-sourced to meet your exact project specifications.

Brand Profile

TrioVing

TrioVing is a Norwegian lock and door-hardware brand with deep roots in Scandinavia's "make it survive winter and humans" engineering tradition. The modern TrioVing name comes from a series of mergers in Norway's lock industry: **TRIO** was formed in **1904** by the merger of three lock/fittings companies, **VING** formed in **1950**, and the two combined in **1971** to create **TrioVing A/S**, which became Norway's leading lock company.

In **1983**, Finland's **Abloy** entered the Norwegian market by acquiring **TrioVing's Locks and Security** (along with VingCard's hotel security business), pulling TrioVing into the broader Nordic consolidation story that eventually became ASSA ABLOY.

What TrioVing is especially known for today is robust, **Scandinavian-style lockcases and hardware**—including **stainless steel mortice lockcases** that show up in **high-end Scandinavian doors** and **marine applications**, where corrosion resistance isn't a "nice to have," it's the entire point.
