Product Description

The Trioving Boda 2011 mortice lock is a high-quality internal door lock designed for interior doors requiring an extra level of security. Serving as a more secure upgrade to the Trioving Boda 2014, the 2011 model features a 5-lever mechanism that offers 250 different key combinations. This ensures that, unlike the 2014 model which uses a standard key across all locks, each Boda 2011 lock operates with its own unique keys.

This versatile lock is fully reversible, making it suitable for both left and right-handed doors. Handing can be changed quickly and easily without dismantling the lock case - simply pull the latchbolt out, rotate it 180 degrees, and release. Finished in a durable zinc plating, it is designed to work seamlessly with lever handles and escutcheons.

Technical Specifications

- **Lock Type:** Internal mortice lever lock
- **Mechanism:** 5-lever
- **Key Combinations:** 250 unique variations
- **Backset:** 45mm
- **Centres:** 72mm

- **Finish:** Zinc plated (silver)
- **Handing:** Reversible (suitable for left or right-handed doors)
- **Keys Supplied:** 2

Key Features

- **Enhanced Security:** Features a 5-lever design with 250 unique key combinations, providing a more secure alternative to standard single-key internal locks.
- **Reversible Latch:** Simple latch reversal process allows the lock to be adapted for left or right-handed doors by pulling and rotating the latchbolt 180 degrees.
- **Easy Upgrade:** Designed as a direct, more secure upgrade for doors currently fitted with the Trioving Boda 2014 internal lock.
- **Durable Construction:** Finished in a robust zinc plating for long-lasting reliability and a clean aesthetic.
