Product Description

These genuine TrioVing fixing screws are high-quality replacement components designed to ensure a secure and reliable installation for your lock cylinders. Specifically manufactured for the TrioVing 5556 and 5537 back-to-back cylinder range, these screws provide the perfect fit and strength required to maintain the integrity of your door hardware.

In addition to back-to-back cylinders, these versatile fixing screws are also fully compatible with TrioVing 5542 thumb turns. Supplied in pairs, they offer a convenient and complete solution for replacing worn, damaged, or lost screws during maintenance or new installations. Using genuine TrioVing parts guarantees optimal compatibility and performance, helping to keep your locking systems operating smoothly and securely.

Technical Specifications

- **Manufacturer:** TrioVing

Brand Profile

TrioVing

TrioVing is a Norwegian lock and door-hardware brand with deep roots in Scandinavia's "make it survive winter and humans" engineering tradition. The modern TrioVing name comes from a series of mergers in Norway's lock industry: **TRIO** was formed in **1904** by the merger of three lock/fittings companies, **VING** formed in **1950**, and the two combined in **1971** to create **TrioVing A/S**, which became Norway's leading lock company.

In **1983**, Finland's **Abloy** entered the Norwegian market by acquiring **TrioVing's Locks and Security** (along with VingCard's hotel security business), pulling TrioVing into the broader Nordic consolidation story that eventually became ASSA ABLOY.

What TrioVing is especially known for today is robust, **Scandinavian-style lockcases and hardware**—including **stainless steel mortice lockcases** that show up in **high-end Scandinavian doors** and **marine applications**, where corrosion resistance isn't a "nice to have," it's the entire point.
