Specification Summary

Brand	Union
Product type	Deadbolt

Product Description

The UNION 1148 Deadbolt Nightlatch is a high-quality, UK-manufactured rim cylinder deadlock designed for timber doors between 35mm and 60mm thick. This model is supplied as a **case only** (without an external rim cylinder), allowing you to pair it with any standard Yale-type or compatible rim cylinder of your choice.

Finished in a clean white enamel, this nightlatch features a robust 14.5mm deadbolt throw. Unlike standard spring-latches, the deadbolt must be manually locked or unlocked using a key from the outside or the lever handle from the inside. This design ensures that the door will not lock automatically when closed, significantly reducing the risk of accidental lockouts.

Suitable for both left and right-hinged, inward-opening doors, the UNION 1148 is ideal for residential and commercial applications. Please note that this lock is not recommended for glass-panelled doors.

Technical Specifications

- **Brand:** UNION
- **Manufacturer Reference:** L1148 (L7023)
- **Backset:** 60mm
- **Bolt Throw:** 14.5mm
- **Case Finish:** White
- **Case Height:** 74mm
- **Case Width:** 92.5mm
- **Handle Projection:** 20mm
- **Door Thickness Compatibility:** 35mm to 60mm
- **Cylinder Included:** No (Case only)
- **Handing:** Reversible (suitable for left or right-hinged doors)
- **Pack Quantity:** 1

Key Features

- **10-Year Guarantee:** Backed by a 10-year manufacturer guarantee for long-term peace of mind.
- **UK Manufactured:** High-quality construction from a trusted British brand.
- **No Accidental Lockouts:** The deadbolt does not lock automatically when the door is closed, requiring manual locking.

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
