Specification Summary

Brand	Union
Product type	Rollerbolt

Product Description

The UNION 1158 Rollerbolt Nightlatch is a highly versatile and reliable rim lock designed specifically for timber doors. Combining the day-to-day convenience of a push-pull roller catch with the robust security of a deadlocking bolt, it is an ideal hardware solution for both residential and light commercial environments.

For daily use, the roller bolt operates with a simple push or pull action. When full security is required, the bolt can be locked in position (deadlocked) using a key from the outside or by lifting the internal handle to the vertical position. The bolt extends from 8mm to 19mm when fully thrown.

Please note that this nightlatch is not suitable for glass-panelled doors. It is manufactured in the UK and comes backed by a 10-year manufacturer's guarantee.

This product is available in multiple finishes, including Chrome Plated, Satin Chrome, and White, with weights ranging from 730g to 740g. Please select your preferred finish and options from the choices below.

Technical Specifications

- **Brand:** UNION
- **Manufacturer Reference:** L1158
- **Backset:** 60mm
- **Case Height:** 74mm
- **Case Width:** 92.5mm
- **Door Thickness:** Suitable for timber doors from 35mm to 60mm thick

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
