Product Description

The UNION 1209 Rimlatch is a classic, UK-manufactured lever rim latch designed for inward-opening timber doors. Featuring a robust steel case with a traditional black enamel finish, this rim latch is ideal for period properties, cottages, and homes seeking a traditional aesthetic.

The latch bolt is operated by a knob from either side of the door, while a handy slide bolt (snib) on the inside allows you to hold the latch back or secure it. The brass latch bolt is fully reversible, making it suitable for both left and right-handed doors. Built to last, the UNION 1209 comes with a 5-year manufacturer's guarantee, offering peace of mind and reliable performance.

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
