Specification Summary

Brand	Union
Product type	Accessory

Product Description

The UNION 2077 Strike Plate is a high-quality replacement keep designed specifically to suit the UNION 2077 horizontal mortice sashlock.

This robust strike plate features a fully reversible design, making it suitable for both left and right-handed timber doors. It is manufactured with countersunk screw holes to ensure a flush, neat, and secure installation on your door frame.

This product is available in two high-quality finishes: **Polished Lacquered Brass** and **Satin Chrome**. Please select your preferred finish from the options below to match your existing door hardware.

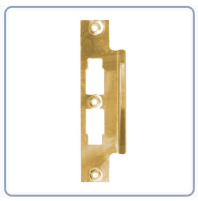

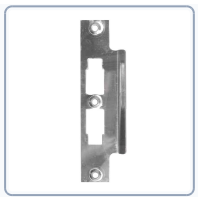

Technical Specifications

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
