Specification Summary

Brand	Union
Product type	Cylinder - Euro Lock Case

Product Description

The UNION 212441E Euro Deadlock is a complete, high-security mortice lockset designed to offer premium protection for timber doors up to 54mm thick. Conforming to BS EN 3621 and Secured by Design standards, this robust deadlock provides peace of mind for both residential and commercial properties. It comes fully equipped with a Union 5-pin Euro double cylinder, matching security escutcheons, and three keys.

Engineered for maximum resistance against physical attacks, the lock features an extended 20mm deadbolt reinforced with hardened steel rollers. It is supplied with a security box striking plate for added frame protection. Additionally, it is EN 1634-1 approved for use on 60-minute timber fire doors, making it a highly versatile and reliable security solution.

This deadlock is available in multiple finishes, including Polished Lacquered Brass and Satin Chrome, with weights ranging from 1.14kg to 1.15kg. Please choose your preferred finish, barcode, and weight options from the selection below.

Technical Specifications

- **Brand:** Union
- **Manufacturer Reference:** 212441
- **Backset:** 57.5mm
- **Case Depth:** 75mm
- **Case Height:** 70mm
- **Case Finish:** Red
- **Forend Length:** 144mm
- **Forend Width:** 30mm
- **Bolt Throw:** 20mm

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
