Product Description

The UNION 2277 Forend Plate is a high-quality replacement faceplate designed specifically for the UNION 2277 3-lever mortice sashlock. It fits neatly onto the edge of the door over the lock case, restoring or upgrading the appearance of your door hardware with a clean, professional finish.

Crafted with a polished brass finish, this forend plate is ideal for replacing worn, tarnished, or lost faceplates. It features countersunk screw holes to ensure a flush, snag-free installation. Additionally, the plate is fully reversible, making it suitable for both left and right-hand hung doors.

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
