Specification Summary

Brand	Union
Product type	5 Lever BS04

Product Description

The UNION 2234E BS 5 Lever Sashlock is a high-security mortice lock designed to provide exceptional protection for external timber doors. Fully compliant with British Standard BS EN 3621 and approved by the police-led Secured by Design initiative, this sashlock is highly recommended by insurance companies. It features a robust 20mm deadbolt with hardened steel rollers to resist hacksawing, alongside advanced anti-pick, anti-drill, and anti-saw

protection.

Designed for versatility, the lock is non-handed with a reversible latchbolt, making it suitable for both left and right-hinged doors up to 54mm thick. It is pierced to accept bolt-through door furniture and is suitable for use with unsprung lever handles. The lock is supplied complete with a matching security box striking plate and three keys.

This sashlock is available in multiple configurations. Please choose your preferred backset, case depth, finish, keying option, and packaging type from the options below.

Technical Specifications

- **Brand**: Union
- **Mechanism**: 5 Lever BS
- **Standards**: BS EN 3621, EN 1634-1 (assessed for 60-minute timber fire doors)

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
