Product Description

The UNION 2969 Rebate Kit is an essential accessory designed to allow standard UNION mortice deadlocks to be fitted securely to rebated double doors or French doors. When installing a lock on doors with overlapping rebated meeting stiles, a standard flat strike plate cannot be used. This rebate set extends the lock and keep to ensure a perfect, flush fit within the rebate, maintaining both the security and neat appearance of your doors.

This rebate kit is specifically designed to suit UNION 2126, 2177, 2401, 2426, and 2477 deadlocks. It is available in multiple depths, finishes, and weights to match your door hardware and installation requirements. Please select your preferred depth, finish, and barcode from the options below.

Brand Profile

Union

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
